The time frame a book is available as a free download is shown on each download page, as well as a full description of the book and sometimes a link to the author's website.

Preaching Building Burying Friars Medieval

Preaching, Building, and Burying is an admirable work all around. It is more than a history of architecture in the late Middle Ages. It is an example of how the social and religious life of a key period in medieval civilization can be enlightened and made both palpable and visible by architecture.

Preaching, Building, and Burying: Friars in the Medieval

...

As mendicants became progressively institutionalized and sought legitimacy, friars adopted the architectural structures of monasticism: chapter houses, cloisters, dormitories, and refectories. They also created piazzas for preaching and burying outside their churches.

As mendicants became progressively institutionalized and sought legitimacy, friars adopted the architectural structures of monasticism: chapter houses, cloisters, dormitories, and refectories. They also created piazzas for preaching and burying outside their churches.

Preaching, Building, and Burying | Yale University Press

The mendicant orders had a profound impact on urban space. Their focus on the externalization of religion through outdoor preaching meant that initially church spaces for the laity were not essential; as a result, the churches of the friars were

Preaching, Building, and Burying. Friars in the Medieval City

They also created piazzas for preaching and burying outside their churches. Because of irregular funding, construction was episodic, with substantial changes in scale and design. Art historian Bruzelius writes this first book to analyze the friars' influence on the growth and transformation of medieval buildings and urban spaces.

The Franciscan and Dominican orders were founded to root out heresy, so naturally they later became the inquisitors, which they often benefited from financially. This and the assistance friars gave in the development of wills and donations for intercessory prayer and burial brought in large sums of money.

Preaching, Building, and Burying: Friars in the Medieval City
Friars transformed the relationship of the church to laymen by taking religion outside to public and domestic spaces. Mendicant commitment to apostolic poverty bound friars to donors in an exchange of donations in return for intercessory prayers and burial: association with friars was believed to reduce the suffering of purgatory.

Preaching Building And Burying Friars In The Medieval City

In her study of the 'social lives of buildings', Bruzelius describes how friars' activities shaped the interior and exterior spaces of medieval cities; in particular explaining how individual donors'

Preaching Building And Burying Friars In The Medieval City ...

A distinctive feature of the new religious orders of the thirteenth century (Franciscans and Dominicans among others) was their adoption of apostolic poverty. Friars focused their action on charity and outdoor preaching to convert the urban poor from heretical practices. In this talk, Caroline Bruzelius (Anne Murnick
